

## Y8 Geography Homework: Autumn 1

# What can we do when disaster strikes?

Rotary International is an organisation that also supports a charity called ShelterBox. They provide families with the emergency shelter and vital equipment they need to survive following a disaster.

ShelterBoxes are stored in strategic locations around the world, enabling the charity to have aid on the ground within 48 hours. ShelterBox Response Teams ensure aid reaches the most vulnerable families and communities.

**Your task is to think about what a family may need following a disaster in order to survive for a few days.**

**On the next page label the box with items you think should go inside and give a written reason why you have included it.**

**You could make it visual and add images of the items you would include. The work can be completed on a computer or by hand. Digital submissions can be shared via School 360.**

**Due in by the 9th October**

**ShelterBox provides families with the emergency shelter and vital equipment they need to survive.**
